

Servicing Program

Clean Air for Science and Technology

Clean Air Service

CAS offer a comprehensive service program that is unprecedented within the clean air industry. We offer a competitive pricing structure with service contracts tailor made to suit your exact requirements.

Our field engineers are fully trained and conversant with the latest standards and guidelines. To ensure minimal down time in the event of a breakdown engineers carry a comprehensive range of spare parts, this is supported by over £250k worth of stocked spares at our factory.

All types of microbiological safety cabinets and clean air equipment can be serviced and maintained by CAS regardless of manufacturer ensuring safe operation and regulatory compliance.

Equipment Serviced and Maintained

- Microbiological Safety Cabinets (Class 1, 2 & 3)
- Laminar Flow Workstations
- Pharmaceutical Isolators (All Types)
- Powder Control Booths
- Fume Cupboards
- Ventilated Tables
- Downflow Booths
